TECHNICAL PROJECTS

Barnawa Rahma Multipurpose Website

Stack: [HTML](#), [CSS](#), [JS](#) and [Django Framework](#)

- Developed a community-focused financial cooperative website providing interest-free, Shariah-compliant financial services.
- Designed the platform to promote economic empowerment, savings, and ethical financial practices for members.
- Showcased services including savings plans, loan facilities, investment options, and welfare programs, structured around Islamic finance principles.
- Emphasized values of mutual support, self-reliance, and community development to foster financial growth in a secure environment.
- Created an informational and onboarding platform to encourage membership and participation in financial services and community initiatives.

Contribution: Designed the full website

DrinkHub

Stack: [Python](#) and [Tkinter](#)

- Designed DrinkHub to streamline and automate daily operations for beverage retail businesses.
- Enabled efficient management of inventory, sales, and customer transactions, ensuring accurate stock tracking and real-time updates.
- Incorporated tools for monitoring product availability, recording sales, generating reports, and managing suppliers to support informed business decisions.

- Built the application with a user-friendly interface to enhance productivity, reduce manual errors, and improve overall business efficiency.

Contribution: Full package

Codeblocks Technologies Website

Stack: Django framework with HTML, CSS, JS

- Developed a website for Codeblocks Technologies, specializing in software development, IT consulting, and digital transformation services.
- Showcased the company's capability to build custom web applications, cloud-based solutions, and scalable digital products.
- Highlighted services including project management, technical architecture, software maintenance, and industry-focused training.
- Emphasized the use of advanced tools, agile methodologies, and cloud technologies to deliver high-quality, reliable, and cost-effective solutions.
- Positioned Codeblocks Technologies as a professional IT solutions provider focused on innovation, client satisfaction, and organizational growth through technology.

Contribution: Backend
